FABRIC MANIPULATION WORKSHOP

What do you need?

- textile: cotton, stretchable fabric, polyester fabric (about ½ meter each)
- one old umbrella (size does not matter) to be deconstructed
- needles and threads (various types)
- small metal objects (coins, nails, etc.)
- elastics in different sizes (thick, thin)
- hammer
- small plastic bags (the thicker the better)
- wooden frame (20 x 30cm) – You can purchase a paint canvas from Xenos or Action and remove the canvas part, leaving the corner staples in place.

Extra material provided by DIY

- [heat gun](#) (available to buy from DIY)
- latex
- latex wall paint (muurverf)
- clay
- textile hardener (Paverpol)
- silicone kit
